Notus takes multiple orders in Vigo

01 Nov 2009

Notus has told World Fishing that the company was very pleased with the results from WFE.

The Notus stand was constantly busy with visitors from Spain, South Africa, South America and other countries. Vessel owners and skippers were very interested in Notus's net monitoring solutions for trawlers (Trawlmaster) and seiners (Seinemaster).

Three orders were taken at the show for the Trawlmaster. These are to be installed in autumn this year. The systems consist of solutions to monitor doorspread, trawl wire lengths, headline height and door angle.

Notus says it is sure that many other sales will come over the next few months as a direct result of the Vigo show and would like to say a sincere thank you to all that took the time to drop by the stand.
